University of Washington

Sept 2009 – June 2014

Bachelor of Design

Coding Dojo Web Development Program

April 2017 – Aug 2017

Certificate of Achievement

EXPERIENCE

Coding Dojo Web Development Program

Student | April 2017 – Aug 2017

- Developed and coded full stack web development for 500+ hours during the immersive 14 weeks coding program and deployed course assignments/projects to a [Github](#) repository with Amazon AWS.
- Proficient in solving algorithms and developing code with HTML/CSS, Javascript, Python/Django and C#/.NET Core.
- Project: [Activity Center](#)
Built a C#/.NET Core web page application that allows users to create and join activities with the click of a button. Shows proficiency of Login/Registration, making Database Queries, using Session, Routing, and general HTML/CSS.

Coding Dojo

Graphic Designer | Aug 2014 – Mar 2017

- Delivered visual assets and constructive feedback (user interaction/user experience notes, redlines, and responsive transitions) for [web design projects](#) to the development team in Asia and performed quality assurance on a weekly basis to expedite marketing/web updates and features.
- Designed [flyers](#) and [informational packets](#) in Adobe InDesign to market the company's products and special promotions for networking events and in-house seminars.
- Participated in design brainstorming sessions with other designers to produce ideas to present to higher management and incorporate feedback to improve design efforts for future projects.
- Utilized design briefs, sketches, brand guidelines, and wireframes to execute final products from start to finish within tight deadlines.
- Designed and updated simple [web banners](#) in various sizes in Adobe Photoshop to perform A/B testing for the most optimized variant.
- Boosted conversions by redesigning email templates in MailChimp to have clear call-to-actions and ensured they matched company branding. Designed and formatted the internal [monthly newsletter](#) that promotes company goals and achievements to increase transparency in the company.

Seattle Chinatown International District Preservation and Development Authority (SCIDpda)

Graphic Design Intern | June 2012 – June 2014

- Designed visually appealing [postcards/posters](#) that promoted upcoming events and activities in the neighborhood.
- Produced and tailored [informative documents](#) and [brochures](#) to educate locals from older generations and ethnic backgrounds of current issues facing the immediate area.
